A "How To Guide" for the **Laundry Bar**

Totally safe around children and pets

Six times stronger than Pink Solution, with Borax added, the Laundry Bar is perfect for taking out even the toughest stains. Simply get it wet, apply it and rinse the stain away.

The Enzyme Bar is perfect for taking on the road with you when you can't get to a laundry machine and for leaving by the washer to take out the tough stains no-one else can touch. As with all our

Earthcare Products, it is open to the imagination for its many uses. A lot of our customers have reordered this amazing bar for using to help resolve skin problems!!!

"I purchased your product in Costco's Pembroke Pines, FL. I was told to try the laundry bar on my skin to help clear it up. I have very dry skin from skin cancer so i tried, nothing to lose. It worked, my skin has cleared up and holds moisturizer better. My arms and face skin has not been this clear in 15 years. Thanks for the product."
